## 4. Hamilton City Speed Limit Bylaw Register Changes

<u>Richard Porter (Bike Waikato)</u> spoke to his submission in support of the safer speed limit in the Garnett Avenue area. He requested speed mitigation infrastructure, the importance of supporting multi-modal transport in the area, and community education for the lower speed. He responded to questions from Members concerning appropriateness of similar lower speed environments in the city and their appropriateness as a solution in the Garnett Avenue area.

<u>lan Kindred</u> spoke to his submission in support of the safer speed limit in the Garnett Avenue area. He outlined his experience as a resident with the current speed limits and layout, through traffic use of the roads, congestion periods, dangerous driving habits of those using the area as a through road, and large vehicle use. He responded to questions from Members concerning driver speeds

and large vehicle use of the road.

<u>Katie Alini</u> spoke to her submission in support of the safer speed limit in the Garnett Avenue area. She outlined her experience as a resident in the area concerning driver behaviour including "burnouts". She responded to questions from Members concerning "boy-racer" behaviour mitigation opportunities including infrastructure interventions.

<u>Hailey Moala</u> spoke to her submission in support of the safer speed limit in the Garnett Avenue area. She outlined her experience as a local resident, concerns relating to child safety and requested the addition of speed mitigation infrastructure like speed-bumps.

<u>Ingrid Purcell</u> introduced her neighbour Victoria Christensen and they spoke to her submission in support of the safer speed limit in the Garnett Avenue area. They outlined their experience as residents of the area concerning the safety of vulnerable residents, driver behaviour including "burn-outs and donuts", and the need to slow vehicles down.

The Acting City Transportation Unit Manager spoke to the report and outlined the submissions received, funding available to introduce physical works at Hinton Avenue, Garnett Avenue and Storey Avenue, the next step which included further targeted consultation, and the expected start date of the lowered speed limit. She responded to questions from Members concerning the timeline to implement the physical works, the extent of the physical works planned and potential to increase the planned interventions, engagement and feedback from local residents, opportunities for staff to report back to Members, heavy vehicle use of the roads, 30km/h speed limits, and best practice for changing driver behaviour.

**Staff Actions:** Staff undertook to report back to Members at the completion of the project with the outcomes of the decreased speed and physical works, including feedback from local residents.

**Resolved:** (Cr Donovan/Cr Wilson)
