

11 August 2025

Kia ora,

Rifle Range Road infrastructure renewals from 25 August 2025

We'll be carrying out some important infrastructure renewals on Rifle Range Road from late August 2025. Waipa Civil will be renewing a watermain, and following this work, Connect Hamilton will resurface the road.

What you need to know

This construction season we're planning to renew the watermains and reseal your road. As part of this programme, we will:

- **Renew the watermain along the east side of Rifle Range Road from Norton Road roundabout to the northern corner of Swarbrick Park.**
 - This work is expected to begin on 25 August 2025 and finish in February 2026, weather dependent.
 - Usual hours of work will be Monday to Friday, 7am – 7pm.
 - Work will mostly take place in the cycleway, with traffic management in place to keep our workers and the public safe.
 - This includes drilling holes horizontally under the ground under the cycleway, installing the new watermain pipe, and connecting the new watermain pipe into the existing network as well as surrounding properties.
 - We may need to shut off your water for a short period of time while a connection is made. We'll let you know if we intend to do this ahead of time through a flyer drop or door knock.
- **Resurface the entire length of Rifle Range Road from roundabout to roundabout.**
 - This work will take place in stages, pre-seal maintenance and resealing.
 - ⊖ Pre-seal maintenance is where we repair minor road defects prior to the reseal.
 - ⊖ Resealing is where our team seal the road.
 - We aim to complete the pre-seal maintenance during summer school holidays to minimise disruption.
 - Resealing and new road-marking will take place in late February 2026.
 - We'll be in touch with information around the road renewal closer to the time.
- **Carry out minor maintenance while we're in the area**
 - We will be taking the opportunity to do some maintenance work on the footpaths, as well as minor resealing work on side roads.

These renewals have been scheduled to take place together to minimise the impact on road users, businesses and residents.

If you have any questions about the upcoming project in the meantime, or there's something we should be aware of in our planning, please reach out to us at the contact details below.

These works are part of a wider programme of works around Hamilton over the construction season. You can find out more about our road renewals at hamilton.govt.nz/connecthamilton. Our water and roads renewals programmes are an ongoing effort to look after and improve our waters infrastructure and the safety of our roads. While we understand roadworks can be disruptive, we are committed to working together to minimise this and completing the work as efficiently as possible.

We appreciate your understanding and cooperation as we work to maintain and improve our city's infrastructure.

If you have any questions, please contact our Senior Infrastructure Customer Officer Maia Pratt at info@hcc.govt.nz or call 07 838 6699.
