Further to your information request of 15 July 2020 in respect of cell phone towers, I am now able to provide Hamilton City Council's response.

**You requested:**

*Can you please ask the staff how many cell phone towers have been put up in Hamilton during the lock down and how many have gone up since then. And last question how many are on Council land or are extensions of council property eg extensions on street lights.*

**Our response:**

We do not hold information on exactly when cell phone towers have been put up and as such, we have provided the following information.

**Below** is a list of Resource consents and Certificates of Compliance that Planning Guidance Unit has approved for new or upgraded cell phone towers. We have limited the list to those approved after 2015 as any approved before this date would have either been constructed prior to lockdown or the consent would have lapsed (meaning it can no longer be constructed). We have also not included any that we have confirmed have been constructed prior to lockdown.

**Subject:** Question about Telco towers

Hi Angela and Margaret,

How are you? Hope all is going well in council.

Can you please ask the staff how many cell phone towers have been put up in Hamilton during the lock down and how many have gone up since then. And last question how many are on Council land or are extensions of council property eg extensions on street lights.

Thank you so much and looking forward to the answer

Kind regards
