Subject: RESPONSE: LGOIMA 21088 - [REDACTED] / BCD Group - PSHA for bridge over Waikato River / Peacockes Area

Attachments: Bradley_PeacockeHazardAnalysis_final_LGOIMA 21088.pdf

Kia Ora,

I refer to your **information request below**, Hamilton City Council is able to provide the following response.

Request

I understand that a PSHA was undertaken by Bradley Seismic Limited for the new bridge over the Waikato River and the Peacocks area. Please provide a copy.

Response

The Probabilistic Seismic Hazard Analysis (PSHA) for the Peacocke Strategic Transport Project is attached. Please note the disclaimer accompanying this report.

This report has been commissioned by Bloxam Burnett & Olliver Ltd to provide information on the seismic hazard in Hamilton, New Zealand. The author accepts no liability for the use of the material contained in this document by third parties.

The report was prepared for the sole purposes of assessing and recommending seismic spectra to be used on specific structures within the Peacocke Strategic Transport project (the Project). The report was based on the scientific knowledge that applied at the time of its preparation, and the author notes that the science is naturally always advancing. Bradley Seismic Limited and Bloxam Burnett & Olliver Limited (including their directly engaged Project sub-consultants) accepts no responsibility for the use of information contained within this report where the report is used for any other purpose or application on any other structure that is not included within the Project scope.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Kind Regards,

Detailed Description of Request

I understand that a PSHA was undertaken by Bradley Seismic Limited for the new bridge over the Waikato River and the Peacocks area. Please provide a copy.

Furthermore, publicly funded information that can be used to inform the design of infrastructure and structures should be widely released to the engineering community and made available with the engineering specifications and RITS.
