The 20 consents for parking buildings and parking lots will be sufficient.

I refer to your **information request below in red** (and accompanying clarification). Hamilton City Council is able to provide the following response.

In terms of providing information over the span of 7 years regarding Parking Lots and Parking Buildings, this is approximately 20 consents. This part of your request can be responded to within the LGOIMA timeframe.

However, without further clarification as to what “specific activity” you are interested in, the number of consents we would need to review are **2874**. We have estimated that a single full time qualified planner, would only be able to review approximately 50 consents maximum per day. That is, putting aside his/her day to day work. That being said, it would result in approximately 58 full working days for us to provide an accurate response to your official information request.

Therefore, we are refusing your request under section 17(f) of Local Government Official Information and Meetings Act 1987 (LGOIMA).

17 Refusal of Requests

A request made in accordance with section 10 may be refused only for 1 or more of the following reasons, namely:

(f) that the information requested cannot be made available without substantial collation or research.

Please contact us by 5PM, Friday 19 March 2021, if:

- You would like for us to provide the information to your request regarding Parking Lots & Parking Buildings
- You would like to narrow down your request regarding “specific activity”

Staff are available to discuss this with you further to see if there is any other way that your request can be narrowed and resubmitted, please respond by email if you would like staff to arrange this.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Kind regards,

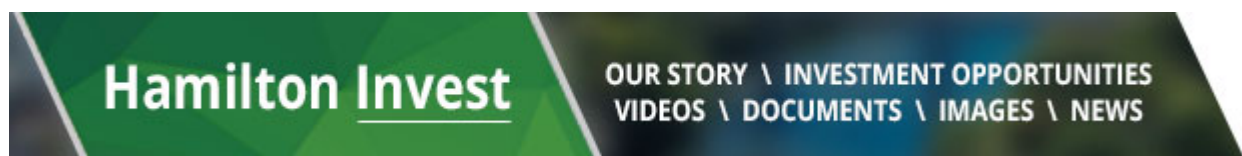

Tatiana Taunoa

Hi Tatiana

The car park consents includes

Parking buildings

Parking lots

and parking spaces associated to a specified activity.

According to council planners, marking and signs restricting parking activities are not acceptable on my projects, yet they are clearly accepted on other projects. I therefore require every example in Hamilton where there may be no parking signs, accessible parking signs or similar.

I refer to your official information request dated 19 February 2021 (see thread below).

Your request as currently framed cannot-meet without substantial collation or research.

Please confirm whether the carpark consents you are requesting are for

- Parking Building
- Parking Lot; or
- Parking spaces associated to a specified activity

Unless your request is amended, we may have to refuse it under section [18(f) of the OIA / 17(f) of the LGOIMA], which applies where the information cannot be made available without substantial collation or research.

Please let us know before 14 March 2021 whether you are prepared to amend or clarify your request.

We look forward to your response.

Tatiana

Subject: Car parks

Hello HCC

Further to the lying and corrupt Hugh McCollough, I now require every resource consent involving a car park in Hamilton issued in the last 7 years.

This is for legal action against the council and is therefore of great public interest.
