Importance: High

Kia Ora,

I refer to your **information request below**, Hamilton City Council is able to provide the following response.

Your Request 1:

Can you please advise where the bridges across the river are in the asset schedule, as I have been unable to find. Also, what are their values and life/ depreciation

Our Response 1:

Please find attached a breakdown of bridges across the Waikato River. This information is recorded under the asset class Transportation in the asset register. The last Revaluation was done in Financial Year 2021. Prior to this, the last Revaluation was done in 2017.

As per the original query for Buildings where depreciation was assessed at 100 years or more, LGOIMA 270341, there are only two Bridges that are over 100 years being Victoria Bridge and Claudelands Bridge, 112 years and 139 years respectively.

Your request 2:

Can you please advise what other items are separate in the asset schedule.

The range of assets and asset schedule is vast. As such, can you please provide clarification around any specific assets you are after. We are unable to provide anything further on this topic due to lack of specificity in accordance with the LGOIMA 10(2).

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Kind Regards,
